

Rt. Hon. Liz Kendall MP  
Secretary of State for Work and Pensions  
Department for Work and Pensions  
Caxton House  
Tothill St  
London, SW1H 9NA

**20 March 2025**

Dear Secretary of State,

We are writing to express our ongoing concerns about the continued rise in the number of outstanding Carer's Allowance overpayment debts.

Your announcement in October 2024 to establish an independent review, led by Liz Sayce OBE, was widely welcomed. We appreciate the progress the review team has made, particularly in gathering evidence from unpaid carers affected by these debts. We also recognise that, however swiftly the Government might implement changes, reform will take time.

Given this, we are concerned that the number of carers facing overpayment debts continues to rise. Comparing Department for Work and Pensions (DWP) figures for May 2024 and February 2025, the total number of outstanding overpayments has increased by over 9,000<sup>i</sup>, with 143,922 carers now affected.

This comes on top of the 71% rise in overpayments debts that occurred between 2018-19 and 2023-24, where the number of cases rose from 80,169 to 136,730<sup>ii</sup>, despite the issue being subject to significant investigation by parliamentary committees and the National Audit Office.

While we await the independent review's findings, we believe that the Government could be doing more to reduce the hardship unpaid carers are facing because of a fundamentally unfair system. Unless mitigating measures are implemented now, unpaid carers will continue to be affected by this scandal.

**As a result, we are asking you to halt the creation of new Carer's Allowance overpayment debts until the independent review has concluded and its recommendations are implemented.**

Once the independent review has concluded, we also ask that you:

1. Commit to publishing its final report in early Summer and implement its recommendations quickly.
2. Look to write off existing substantial overpayments debts where carers could have been notified sooner by DWP.

Under the current system, carers can lose a year's Carer's Allowance (£4,258.80) for exceeding the earnings threshold by as little as £52 annually (£1 a week). This cliff edge often forces carers to choose between poverty and debt. Many already struggle financially, and these debts impact entire households, including children and disabled

family members. It has also become very apparent that the lack of transparency around the way earnings are averaged is causing huge issues for unpaid carers.

Carers make an invaluable contribution to society. We want the system to reflect their worth, rather than leaving them in debt for trying to balance paid work and unpaid care.

We look forward to your timely response and hope to see urgent action on this matter.

Yours sincerely,

1. Helen Walker, Chief Executive, Carers UK
2. Kari Gerstheimer, CEO, Access Social Care
3. Tim Bevans, CEO, Action for Carers (Surrey)
4. Michelle Evans, Project Development Manager, Action for Carers Oxfordshire
